SKILLS SUMMARY

React.js	Express.js
MongoDB	GraphQL
JavaScript	jQuery
Bootstrap	Node.js
MySQL	HTML 5
CSS3	Git
Tailwind CSS	

SOFT SKILLS

Team Player: Love to listen to new ideas and receive team input.

Disciplined: Willing to put in the time to tackle tough problems.

Creative: Not afraid to try new ways to approaching a problem.

Communication: Passionate about conveying my feelings and thoughts.

Humility: I own my mistakes, and try to learn from them. I solely aim to become better than myself from yesterday.

Open-Minded: Open to hearing about others train of thought, absorbing their knowledge.

PERSONAL PROFILE

A Driven and Enthusiastic Web Developer, offering an understanding in front and back-end development as well as a robust nature towards working in a team. Seeking an opportunity to problem-solve challenging code in an environment where growth and personal development is embraced.

PROJECTS AND WORK EXPERIENCE

Projects:

InfoCraft | Deployed Link: jjcourtney.github.io/PDJ-InfoCraft
Repo Link: github.com/jjcourtney/PDJ-InfoCraft

- In a team of three we developed an application that brings users together to compare stats and achievements within the Minecraft community.
- Used three server-side API's to fetch different sources of data and display them to the user.
- As a team we created a polished UI that's mobile-responsive, as well as utilise client-side storage to store persistent data.

2DoCamp | Deployed Link: to-do-camp.herokuapp.com
Repo Link: github.com/meljack1/2DoCamp

- In a dev team of three we developed a to do list application focused on organising and motivating cohort students to become more productive.
- Utilised Node.js and Express.js to create a RESTful API
- Developed our database via MySQL and Sequelize for our ORM
- Incorporated authentification (express-session and cookies)

The A Team | Deployed Link: youtu.be/aM7IIA492Xg
Repo Link: github.com/Dylson14/The_A_Team-HW10

- I solely developed a Node.js command-line application that takes in employee information on a team and in turn creates a HTML webpage displaying the team information.
- Used the Inquirer package to collect user input via prompts.
- Utilised classes to organise the information in roles.

Work Experience:

International team coordinator
Heriot-Watt Univeristy | May 2020- Sept 2020

- Head liaison between international university students and administrative staff for Heriot-Watt university.
- Collaborated with recruitment to resolve outstanding student dilemmas, ranging from finance, visas to accommodation issues.
- Conducted recruitment calls, contacting students and developing a dialogue about their academic route.

Full-Stack Teaching Assistant
Code Your Future | Nov 2021 - Present

- Responsible for teaching UK refugees and disadvantaged people front and back end web development alongside a large team of volunteers. The role demands proficient communication skills and patience.

HOBBIES

In my spare-time I like to manage my youtube channel, devoted to small sustainable learning and travel! Video editing and creating memories sparks the best version of myself.

EDUCATIONAL HISTORY

Full-Stack Web-Development Bootcamp

University of Birmingham | May 2021 - Dec 2021

- Developed fundamental concepts in HTML, CSS, JavaScript, API Consumption, and utilising Git as version control.
- Engineered full-stack web apps with working servers and databases, all connected to the front-end.
- Obtained good practises for optimised code, utilised React and MongoDB to serve dynamic single-page applications.
- Collaborated with several peers to develop 3 deployed large coding projects.

BEng Mechanical Engineer (1:1)

Heriot-Watt University | Sept 2017 - May 2021

- Studied fluid mechanics, dynamics, strength of materials and thermodynamics. Involved demanding problem-solving discipline.
- Honed my ability to take complex knowledge and break them down into small digestible bits of information.

International Baccalaureate Diploma

Luanda International School | May 2015 - June 2017
